dering partial mobilization.

IN CITY OF VIENNA

London, July 26.—Sunday's developments appear to furnish new proofs that Austria is fully determined to make war on Servia, and the possibilities of a general European war seem greater than have ever confronted the present generation.

The Servian reply to the Austro-Hungarian ultimatum was an acceptance of simost all the imperious depoint, but confines itself to asking explanations.

Hungarian ultimatum was an accept-ance of almost all the imperious de-mands, except that Austrian officials shall participate in the investigation and fix the responsibility for the anti-Austrian propaganda. Servia proposed an appeal to the powers at the Hague for the settlement of that feature.

Virtual Declaration of War.

Notwithstanding this humiliating surrender, which was more than Eu-rope expected of the proud little nation, the Austrian government today gave the Servian minister his pass-ports which may be construed as a vir-

tual declaration of war.

Austria committed an act of war by arresting the chief of the Servian general staff, General Putnik, near Budapest, but he was soon released by the emperor's direct command.

A formal declaration of war is not expected because Servia is not a party to the Hague convention, which requires this. The suspension of all perliamentary and judicial institutions has been decreed in Austria, and an investigation of the service ironclad censorship has drawn a cor-don of secrecy around the country so that the outside world is in complete ignorance of everything happening there, except what the government wants the world to know.

Austrian Armies May Be Moving. Even now the Austrian armies may be closing in upon Servia and launch-ing a sudden blow, as Japan did when she sent her fleet against the Russian

while Austria announces a "partial mobilization," the Austrian ambases dor at London has issued a significant notice to all Austrians liable for acenth hour which Austria recognizes is that Servia shall reconsider her reply to the Austrian note and bow to all the demands. Even then Austria pro-poses to exact payment for all her ex-penses in connection with her military measures.

What Will Russia Do?

The question as to whether Russia will take up arms to save her Slav protege from a crushing blow is the crucial feature of the situation on which the peace of all Europe hinges. The same degree of secrecy which Aus-tria has imposed has been established in Russia, also, and therefore it cannot be known what military preparations are in progress there. The Russian per cent. and the committee of the government has permitted messages to go forth quoting the St. Petersburg papers as considering intervention in-evitable and demanded by the popular sentiment.

Germany has informed the other powers that she considers that the Austro-Servian quarrel concerns these nations alone. If any other power takes it up, she declarea, serious consequences must follow.

According to the Daily Telegraph the German ambassadors at the capitals of the triple entente—London, St. Petersburg and "Paris—when asked to press their government to act as a check on Austria, replied simply that they would forward the request. In return, Germany invited the cabinets of London and Paris to do their utmost to keep Russia in check. An official St. Petersburg message says that the pace may be preserved. The foreign minister, Sergius Sazonoff, has made suggestions which he thinks should satisfy Austria and the same time safeguard Servia's sovereignty.

SECRETARY DANIELS INSTITUTES REFORM IN NAVY.

Abolition of Imprisonment for Deser tion in Times of Peace-Dismissa staying Leave-Ways for Honorable Discharge.

Washington, July 25. Abolition of im-prisonment for desertion from the navy in times of peace was ordered today by Secretary Daniels. Under the new regulation bluejackets who overstay their leave or commit similar breaches of dicipline will be summarily dismissed instead of being sent to prison, while men who become dissatisfied with the service and wish to quit may have an honorable discharge by merely refunding certain enlistment allowances.

Radical Departure.

This radical departure from tradi-tional naval methods has been under consideration by the secretary ever since he came into offic. He an-nounced today that the navy now had a very full quota, 91,361 enlisted men compared with a shortage of more than 4,000 eighteen months ago and that the time to take the step had come. Secretary Daniels in a state-ment announcing the new order said: ment announcing the new order said:

"Enlistments in the navy have alwaays been for a definite period—aat
present four years—and it has always
been difficult and at times impossible,
for men to terminate their contract of enlistment by honorable discharge be-fore the enlistment expired. If a man remained absent from his ship of duty after having been granted leave, this made him a deserter, and on convic-tion involved a prison sentence.

Referendum Taken.

"After a very careful and thorough consideration, and after a referendum in which the opinions of many of the highest officers in the navy were ob-tained, the secretary became convinc-ed that this general situation was untenable and not in keeping with modern business ideas. The new order is in accordance with the opinions ex-pressed by a majority of the officers of the navy whose views were invited and whose long experience enabled them to speak with authority."

VILLAR AND ALLENDE FOR SALTILLO CONFERENCE Selected By President Carbajal-Choice Said to Be a Good One.

Mexico City, July 26.—After a three days of continuous labor in which many candidates were considered, President Carbajal today decided upon General Lauro Willar, chief of the supreme tribunals of military and justice, and Judge David Guiterrez Allende, of the supreme court, as the Mexican government's representatives to the Saltillo peace conference. They will leave for Saltillo tomorrow morning, accompanied by a single secretary. It appeared last night that General Angel Garcia Pena and Rafael Pardo, a prominent lawyer, would be selected as delegates, but because several objections to them has been advanced and because of the fear that General Pena would not be acceptable to the constitutionalists, their names were withdrawn today. Official and diplomatic circles consider Villar and Allende well fitted for their task.

NIAGARA RIVER BLAMED. Toronto Complains of Pollution Water Supply.

Toronto, July 28.—Not only is the water supply at Detroit, Mich., and Windsor, Canada, exceedingly bad, but it is dangerous to health, and several deaths, have been due to the infected water served for drinking purposes on the ferries plying between these two cities, according to the report of the International commission, appointed by the United States and Canada to investigate pollution of international waterways.

investigate pollution of international waterways.

The pollution of Toronto's water supply is attributed partially to the Niagara river. The report of the commission deals exhaustively with the sources of water supply and the contamination of the supply by sevage. It asserts that steamers crossing the Great Lakes take drinking water from contaminated areas sixteen miles from land. Five thousand copies of the report have been sent to Washington.

POLOIST'S LEG SAVED. Norman Van Voorhis Undergoes Operation After Fall.

Rochester, N. Y., July 26.—In order to save the left leg of Norman Van Voorhis, prominent western New York horseman and polo player, who had both legs broken a few weeks ago when his pony threw him under an automobile in Livingston county, a rare operation was performed.

A long incision was made near the ankle and the broken bones joined by means of a steel plate eight inches long, a quarter inch thick and one-half inch wide. The plate was acrewed to the bones.

It is thought the operation will prove successful and obviate amputation.
